Please use your online banking or credit card username and password to confirm your identity. This is where we find opportunities to round up and invest the change.

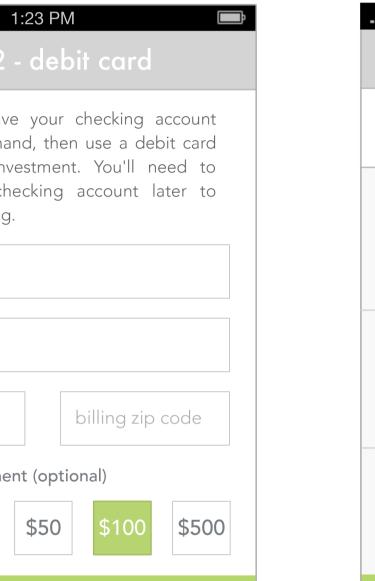

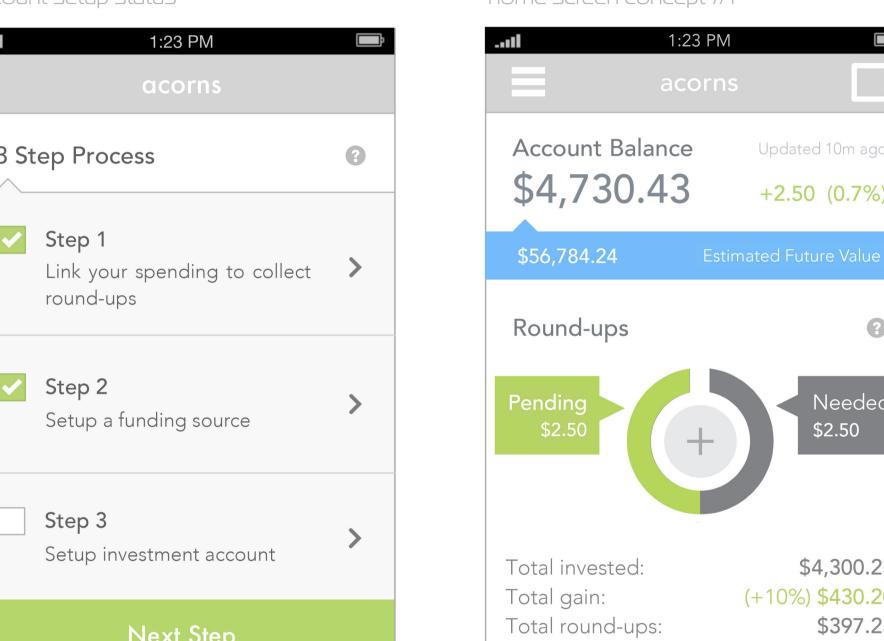

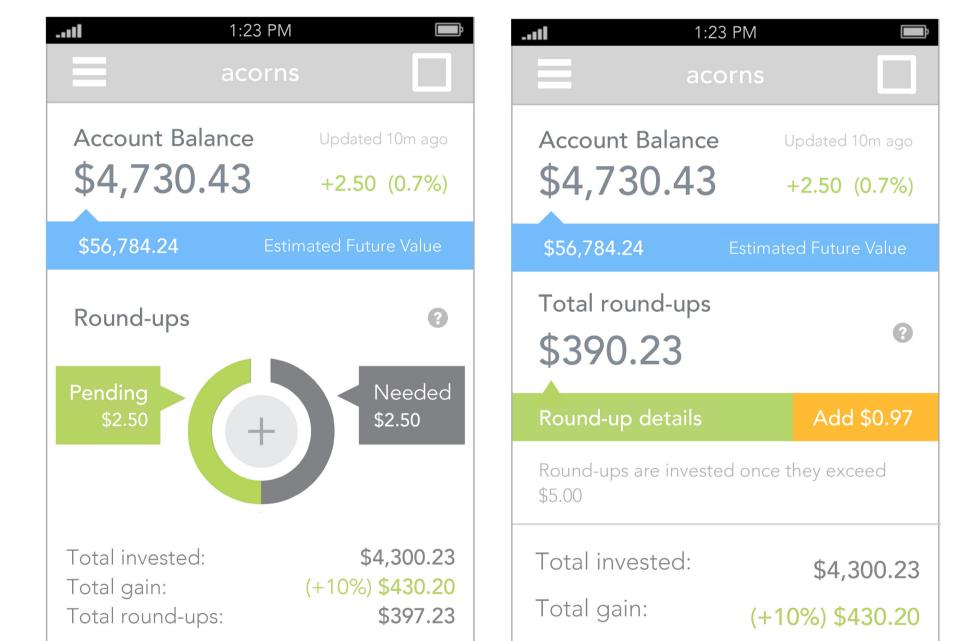

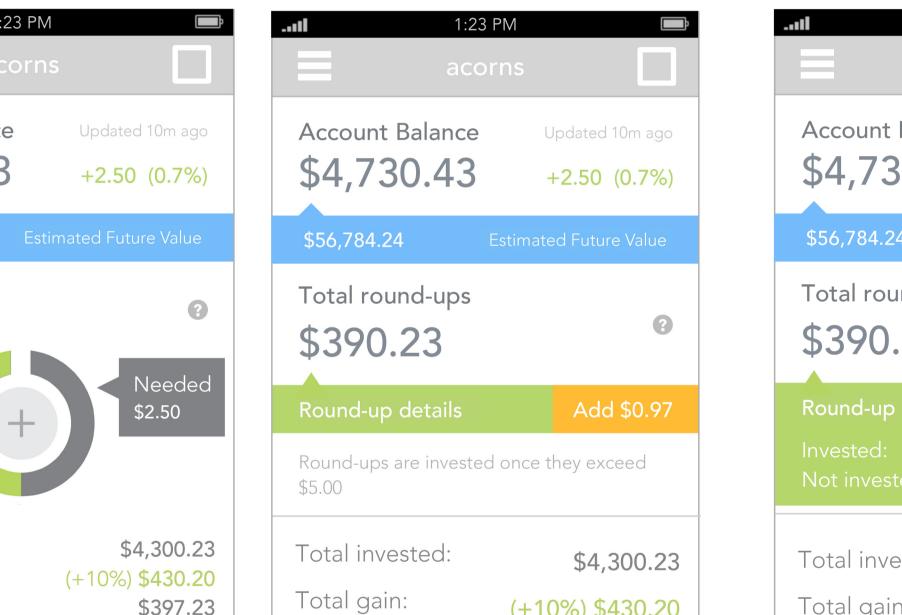

Connect your bank account to fund your investing. If you spend with your debit card,

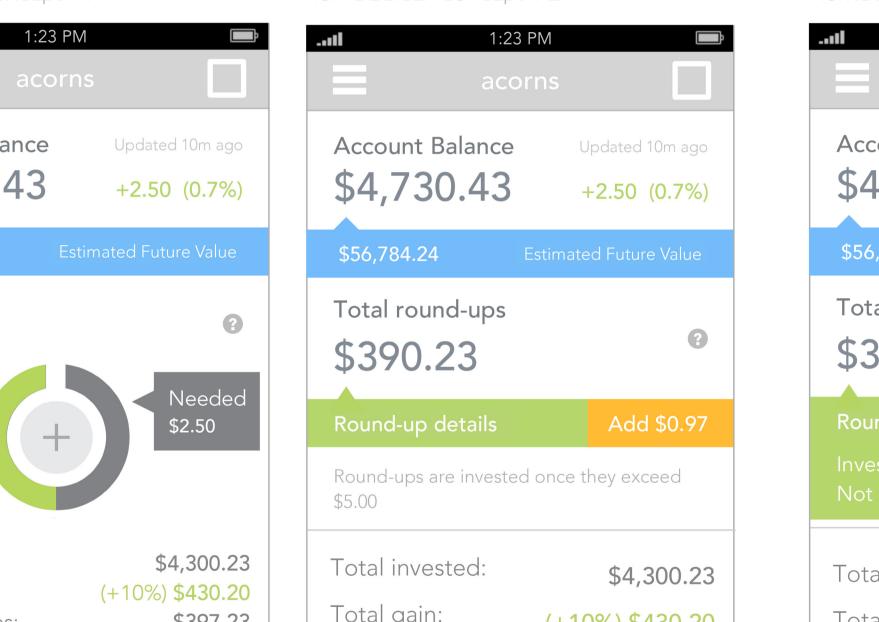

Step 2 - add funding source (ACH)

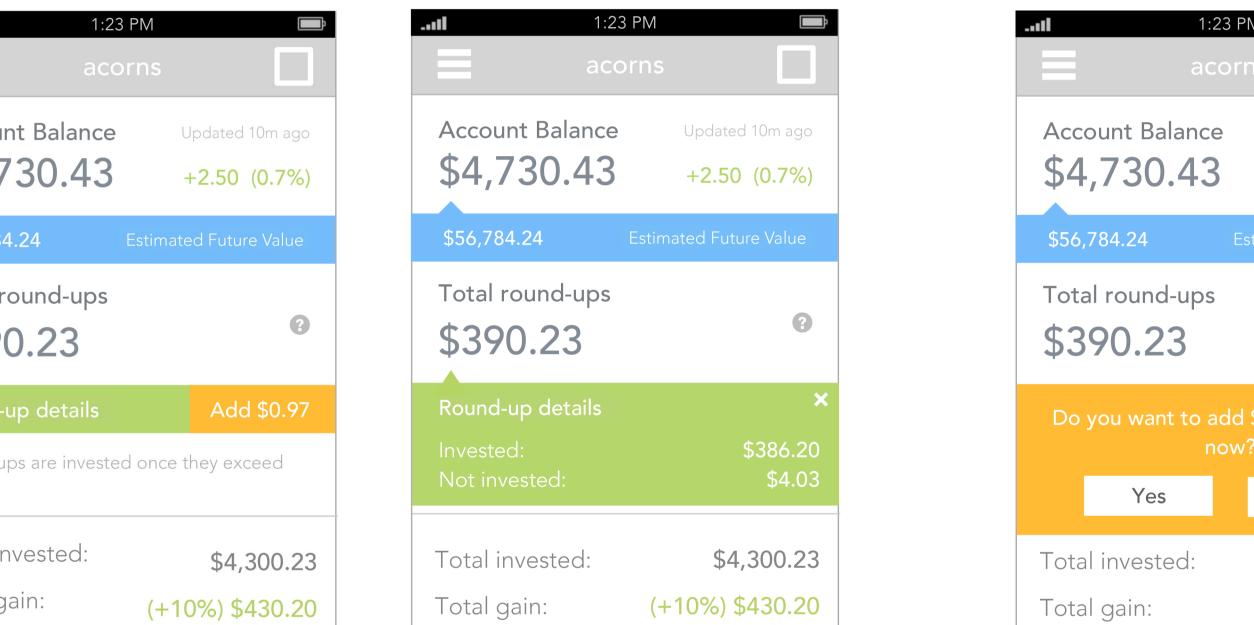

When user taps on Round-up details the pop-

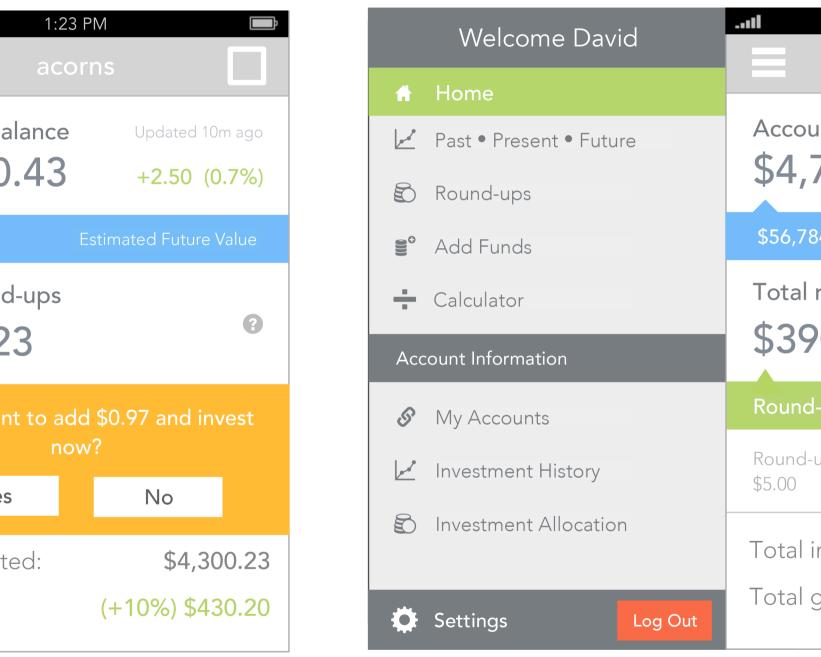

invested details. This makes for a much cleaner,

providing detailed information for those users

up appears showing them Invested and Not

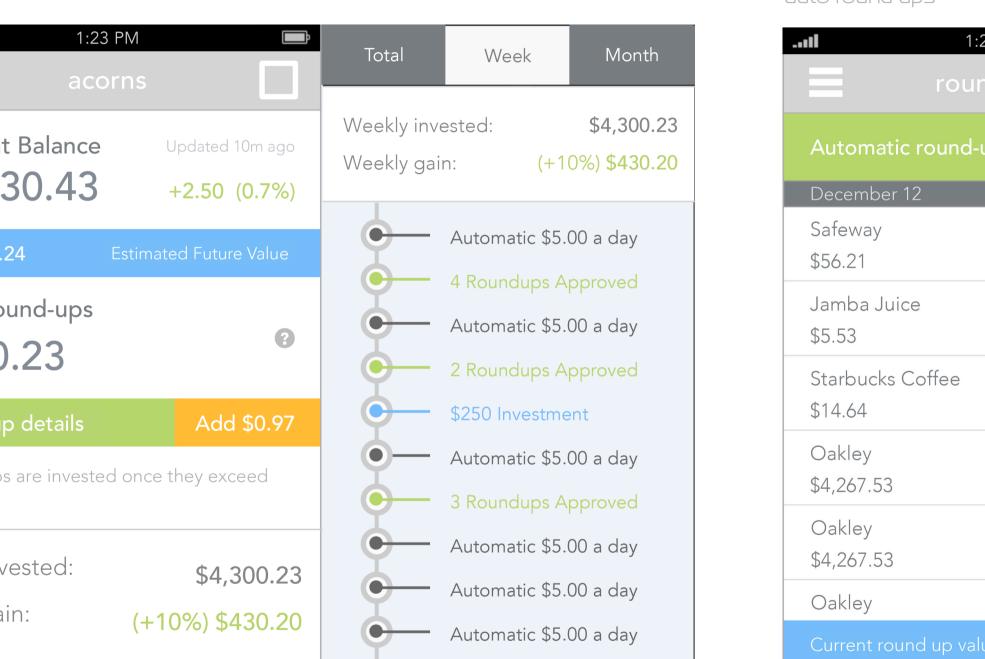

less intimidating home screen while still

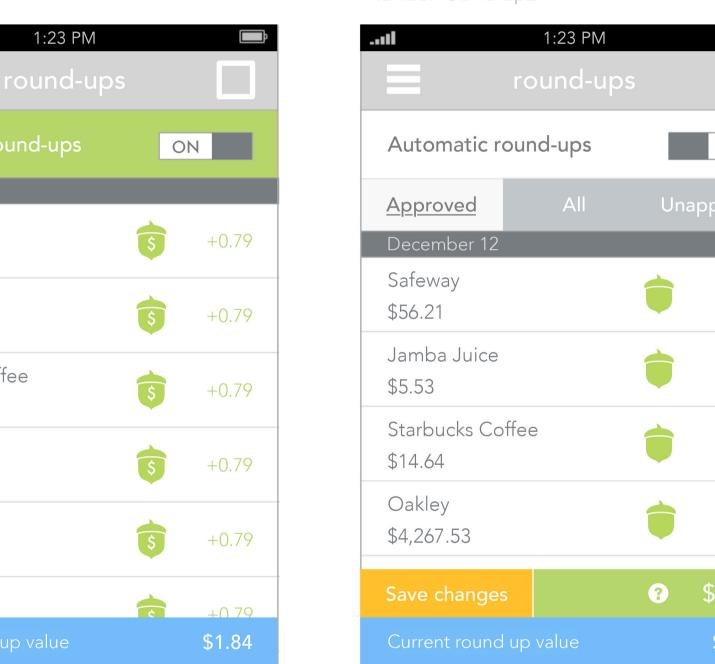

that want it.

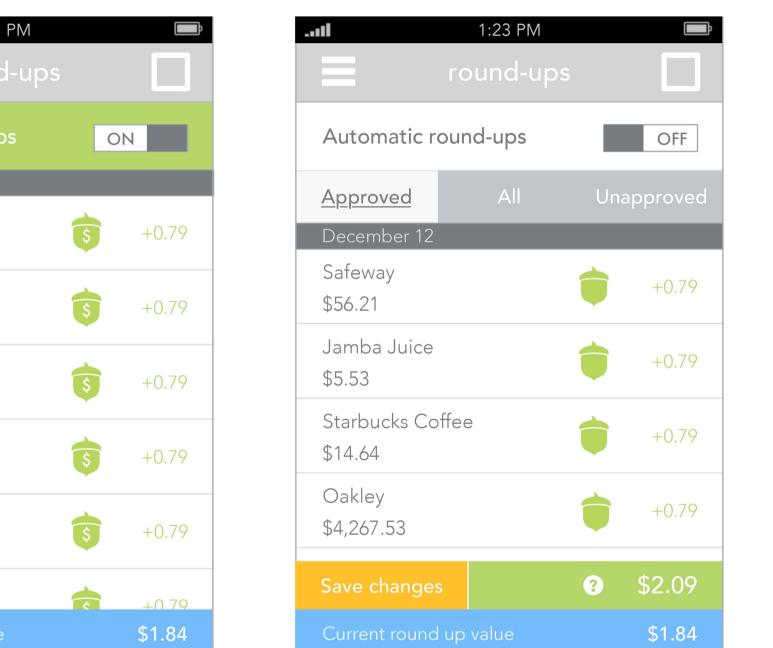

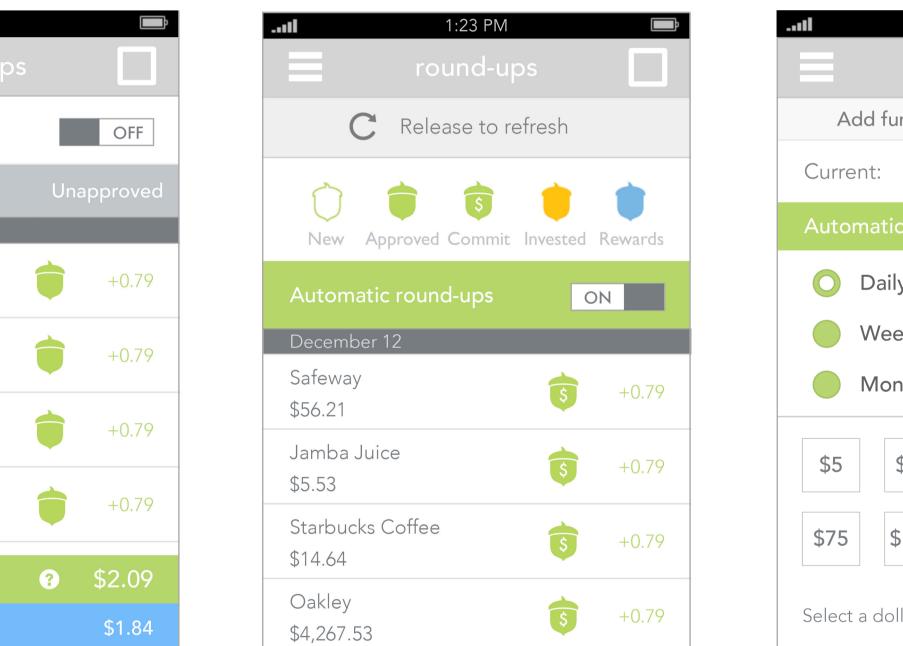

When user taps on "Add" the pop-up appears

asking them to confirm the action.

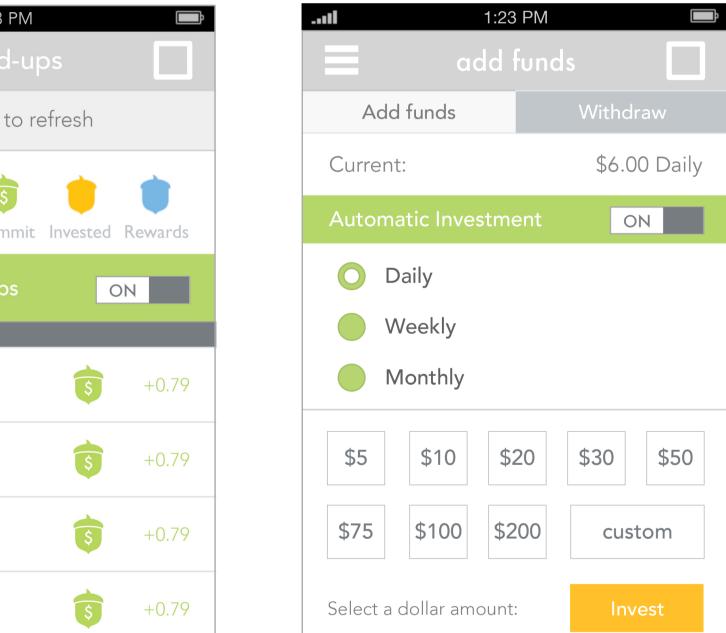

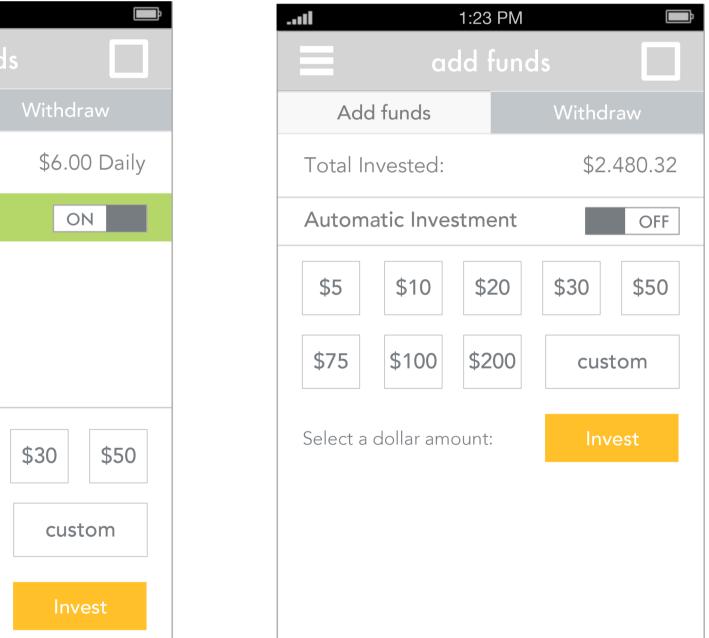

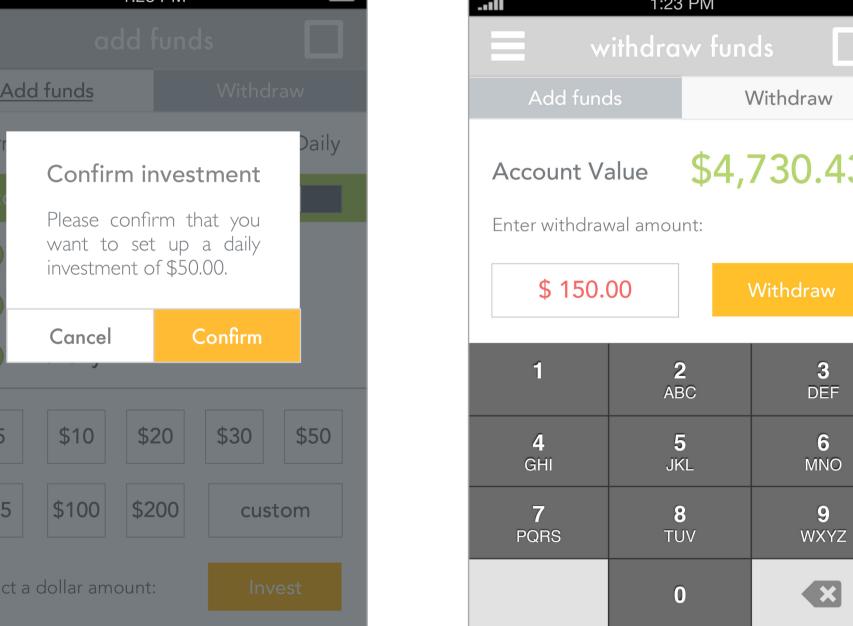

automatically when user taps "Invest". There is no need to clutter the UI with a save button.

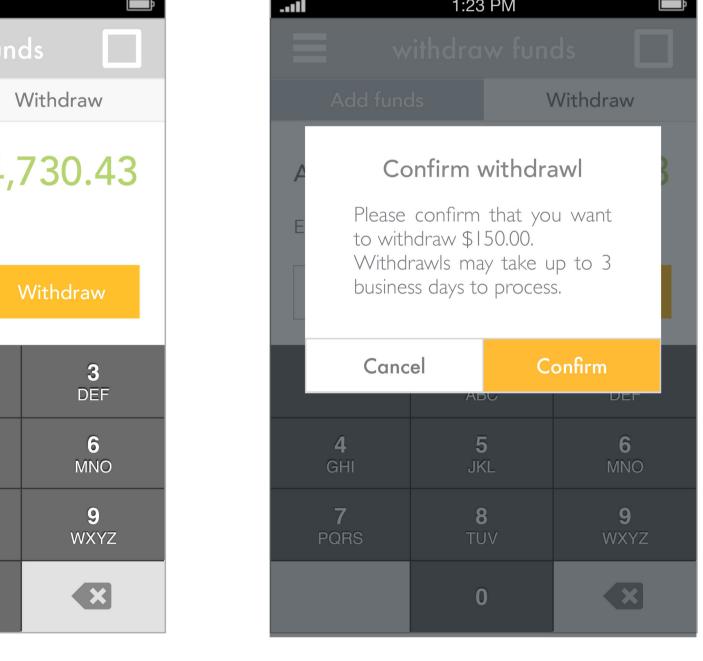

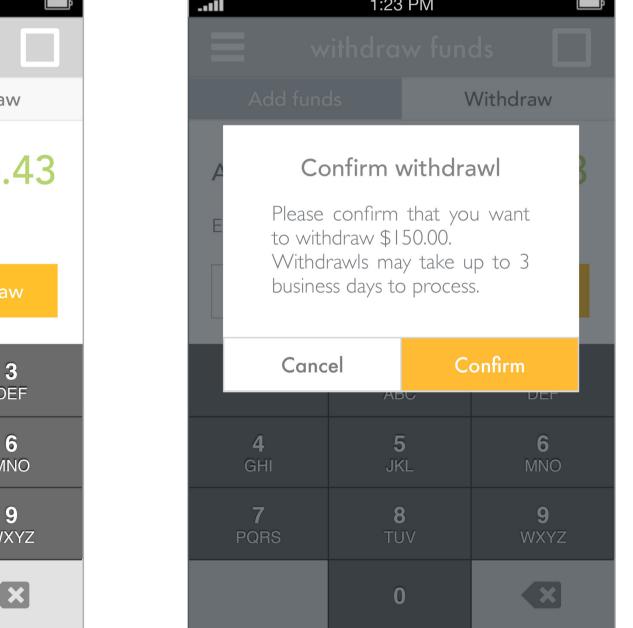

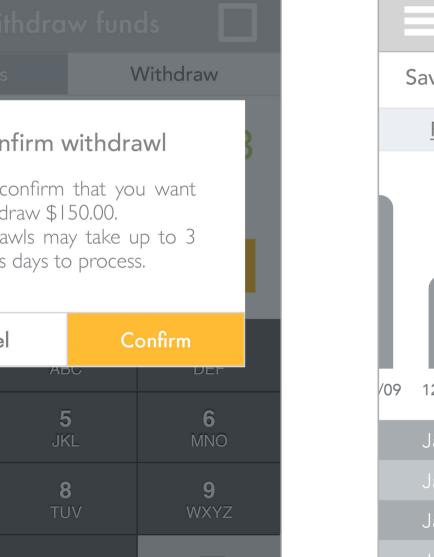

If automatic investment is enabled, type is saved

/09 12/10 12/11 12/12 <mark>12/13</mark> 12/14 12/15 12/

If automatic investment is disabled, investment period selection is hidden and Current investment
