MasterClass

Email connected to ChatGPT

Let's Go!

We'll be creating a zap that connects Gmail + ChatGPT.

Use the following setup in your zap.

_zapier

Trigger

1. Trigger when a new email is received

2. Send a message using ChatGPT

3. Send an auto-reply email with the response from ChatGPT

Step1:
Zap will allow you to create a new inbound email.

1. Trigger when a new email is received

App & event ✓

Trigger ✓

* Email Address (required)

| jasonnmartell | .h8ayao@zapiermail.com | Copy |

Customize the private email address associated with your mailbox. ...   more

Refresh fields   Continue

Test ✓

Step2:
Connect your
ChatGPT account.

2. Send a message using ChatGPT

App & event

Account

ChatGPT jasonmartell... more **Change** ...
jasonmartell2012@gmail.com • Used in 5 Zaps

ChatGPT is a secure partner with Zapier. Your credentials are encrypted & can be removed at any time. You can manage all of your connected accounts here.

to me

Kudos is a smart wallet extension that allows you to manage your digital assets in a secure and convenient way. It's designed to simplify the process of sending, receiving, and managing cryptocurrencies and other digital assets.
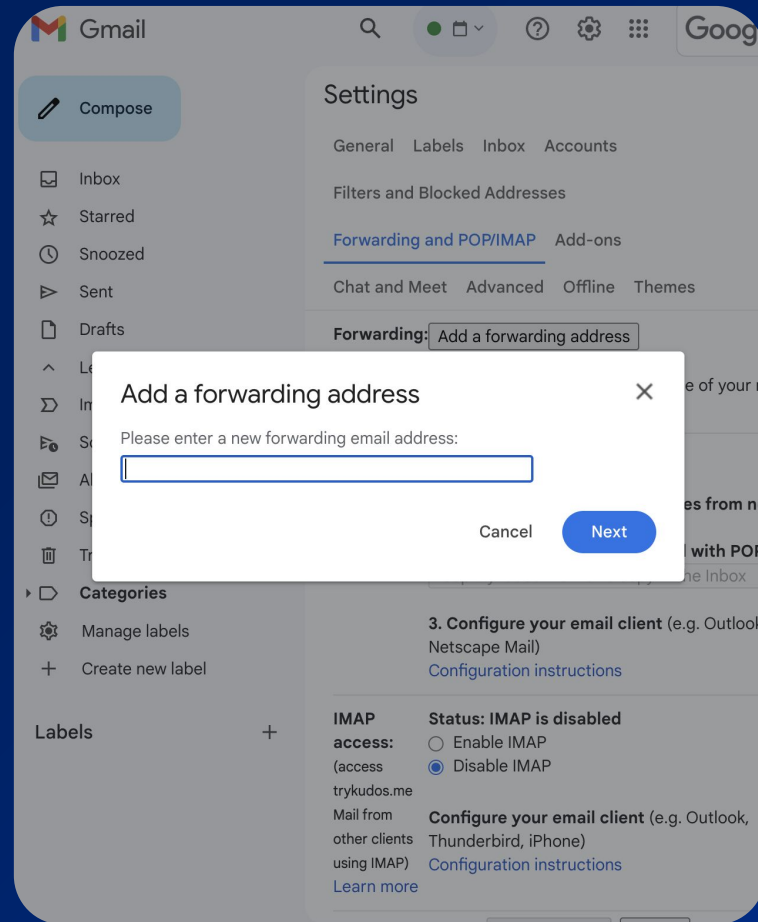

Some of its key features include:

1. Secure Storage: Kudos uses advanced security measures to ensure that your digital assets are stored safely.

2. Easy Transactions: With Kudos, you can easily send and receive digital assets to and from anyone, anywhere in the world.

3. Wide Compatibility: Kudos supports a wide range of digital assets, making it a versatile tool for managing your digital portfolio.

4. User-Friendly Interface: Kudos is designed to be easy to use, even for those who are new to digital assets.

Please note that for specific queries or support-related issues, you should visit their official support page: https://support.joinkudos.com/en-US.

Visit this link to stop these emails: https://zapier.com/manage/zaps/210023919/stop/?check=IjIxMDAyMzkxOSI:1rFJft:EgWfV0lTynud80uEzv2DYIrICRk

Step6:
Forward mail to your new zap email so all inbound mail goes to ChatGPT.

Thanks!
